Loren, Here's the email I mentioned receiving. Could you or David please follow up with Ms. Smith.

Thanks, John

Subject: Treasure Island

Hi John,

I just finished reading the HRA STM and noticed that EPA was commenting on it (David Stensby). so I thought I ought to drop you a note about something that has come up for the base.

I'm a long time RAB member on the Treasure Island Board and I was approached recently by a senior scientist at Lawrence Berkeley National Laboratories (DOE) looking to meet with the stakeholders at TI, concerning radium contamination. He asked for my help. As you are in charge of West Coast base cleanup I felt it would be best to talk to you and you could determine who would be most appropriate for him to talk to or to just alert you to what's possible to keep you informed. I would like to speak with you very briefly about his offer. If you will let me know what your availability is, I would call you at that time. It won't take long. I'm quite excited about these prospects.

Dale Smith
